

Will the Internet globalize science?

WORLD
SCIENCE
PROJECT

**A scholarly project examining research communication
in less developed areas since 1994
using surveys, interviews, and video ethnography**

<http://worldsci.net>

Core sponsor of an official World Summit Side Event on science and technology:

Past, Present, and Future (PPF) of Research in the Information Society

13-15 November 2005

**Project documentaries screened at the World Summit on the Information Society (Phase 1-Geneva 2003, Phase 2-Tunis 2005),
and the Society for Social Studies of Science (Paris 2004 - Pasadena 2005) are available upon request.**
